About every paper in the state except the News, published Gov. McMillin's type-written effusion about the state finances and, no doubt, many of the dear editors thought they were honored with a personal effusion. Any way McMillin got a half a column of space pretty slick.

The building of the road for the Needmore Mines from Bridgeport instead of South Pittsburg gives the latter place a knock out blow. While we wished that South Pittsburg could have secured the plum still we must keep our eye on Bridgeport.

It vitalizes the blood, gives vigor and tone to all the organs and functions, and is positively unequalled for all run-down or debilitated conditions.

THE NEWS.

Correspondents should always put their names on their communications. If they do not it gives us unnecessary trouble.

Too much housework wrecks women's nerves. And the constant care of children, day and night, is often too trying for even a strong woman. A haggard face tells the story of the overworked housewife and mother. Deranged nerves, leucorrhoea and falling of the womb result from overwork. Every housewife needs a remedy to regulate her menses and to keep her sensitive female organs in perfect condition.

WINE OF CARDUI

Is doing this for thousands of American women to-day. It cures Mrs. Jones and that is why she writes this frank letter:

Glendora, Ky., Feb. 10, 1901.

I am so glad that your Wine of Cardui is helping me. I am feeling better than I have felt for years. I am doing my own work without any help, and I washed last week and was not one bit tired. That shows that the Wine is doing me good. I am getting fatter than I ever was before, and sleep good and eat hearty. Before I began taking Wine of Cardui, I used to have to lay down five or six times every day, but now I do not think of lying down through the day.

Let it Alone.

Scott's Emulsion is not a good medicine for fat folks. We have never tried giving it to a real fat person. We don't care. You see Scott's Emulsion builds new flesh. Fat people don't want it. Strong people don't need it.

But if you are thin Scott's Emulsion is the medicine for you. It doesn't tire you out. There is no strain. The work is all natural and easy. You just take the medicine and that's all there is to it.

The next thing you know you feel better—you eat better—and you weigh more. It is a quiet worker.
